

## Operational Requirements

The chocolate fountain comes complete with the fondue and where requested the illuminated surround. Unless otherwise stated it includes an operator and our standard dips are Marshmallows, Mini Donuts and Fruit of the season in most cases these are Strawberries, other dips are available instead or as an addition.

We can also colour the chocolate should the theme require and for the more adventurous we can add a tittle of baileys or Tia Maria at events for the over 18's.

When Hired we are completely self contained, we require only a table preferably round with a diameter of 1.25 mtr and access to an electric point.

The system is well maintained throughout the event where dips are replenished and cleanliness around the fountain and in our area is kept spotlessly clean.

Situating the fountain in a high traffic area for maximum visual impact is best.
